Vision and Goals – City Services and Facilities Chapter

Current End Statement & Outcomes

End Statement for City Services

People find the City of Burnsville delivers quality essential services in a cost effective, timely manner.

Outcomes

1. Residents and businesses recognize City services as a positive value.
2. Residents perceive City employees as customer service oriented.
3. City Services focus on and City employees are increasingly involved in community building.
4. Residents are informed about issues, feel positive about City services and are aware of opportunities for increased involvement in community initiatives.

Outcomes

5. **Businesses and residents are attracted to Burnsville because of a visible commitment to technology that supports an enhanced quality of life.**
 - a. Burnsville facilitates community-wide accessibility to broadband technology.
 - b. Burnsville provides effective community-wide electronic-government (E-Gov.) services.
 - c. Burnsville provides and supports local Public, Education and Government (PEG) television programming.
6. **Burnsville is an organization that provides a supportive and collaborative environment encouraging employee learning and participation in the decision-making process.**
7. **Continued implementation of service consolidations and partnerships with Dakota County and other cities.**

Current Vision and Objective

Vision

The City of Burnsville values its customers – which are the residents, business owners, and visitors to this community. This value is consistently reflected through how city services are delivered to the public.

Objective

To preserve, manage and enhance the unique natural resources and ecosystems that help define Burnsville's quality of life.

Current Goals

1. Continue to review and update, as needed, the sanitary sewer and water supply system plans, and explore the feasibility of alternative groundwater sources.
2. Encourage existing above ground utilities to be converted to underground utility systems or to be screened if the utilities must be located above ground.
3. Consider installing “shadow” conduit or “empty” conduit for possible communications infrastructure in areas where reconstruction or new construction takes place within the public right-of-way.
4. Maintain the municipal antenna sites for the community’s telecommunications needs, and maintain adequate zoning regulations for antenna towers, consistent with federal law

Current Goals

5. Develop community facilities to the same aesthetic, environmental and development standards required for private property.
6. Increase volunteerism and citizenship opportunities in Burnsville.
7. Increase and maintain a high level of code enforcement throughout the city to promote the upkeep of properties and improve the overall city appearance.
8. Partner with all of the school districts, community organizations, business leaders, neighborhood block captains, residential homeowner associations and rental property owners to maximize joint ventures for facilities and operations use (e.g. snow plow efforts, joint parking arrangements, communication efforts/ brochures, pedestrian improvements etc.)

Current Goals

9. Partner with all of the school districts, community organizations, business leaders, neighborhood block captains, residential homeowner associations and rental property owners to maximize joint ventures for facilities and operations use (e.g. snow plow efforts, joint parking arrangements, communication efforts/ brochures, pedestrian improvements etc.)
10. Continue to improve Burnsville as a safe community with a consistently high level of public safety.
11. Fund public safety initiatives to maintain and improve the current high level of service.
12. Encourage resident's support of public safety initiatives through volunteerism and community service.

Current Goals

13. Maintain high level community recreational programs and facilities for people of all ages and cultures; and promote partnerships among civic and neighborhood groups, school districts, churches, the city, and other public, private and non-profit agencies to avoid the duplication of facilities and programs, and to more efficiently meet the need for a variety of recreational experiences that are enjoyable, educational, safe, attractive, affordable and accessible.
14. Develop and maintain neighborhood recreational facilities that are consistent with changing community and neighborhood needs; promote and support the incorporation of cultural elements within the recreation programs; and monitor the changing needs of the city's growing senior and ethnically diverse population.

Current Goals

15. Maintain adequate passive and active open space for the enjoyment of Burnsville residents, based on the general standard of a minimum of 20 acres of public open space for every 1,000 persons.
16. Continue to require the dedication of park land, or payment of cash in lieu of land, for all commercial, industrial, and residential development, in accordance with the park dedication policy, Subdivision Ordinance and state law.
17. Support the development and operation of a private golf course and clubhouse (open to the public), on the Burnsville Sanitary Landfill site following closure of the landfill (upon review and evaluation of a need for golf course facilities at that time).

Current Goals

18. Support development of the Minnesota Riverfront area of the MRQ for public park and recreation facilities and natural open space.
19. Update and implement the Parks Master Plan and the Trails Master Plan to respond to the community's need for recreational and park facilities.

Current Strategies

Because this chapter covers a wide range of topics, it does not specifically include strategies. Implementation strategies will be included in the 2040 Comp Plan update.
